

For a number of years Bernard ran one of the largest counselling charities in the west, and since setting up his own practice has lectured extensively on Hypnosis, NLP and Psychotherapy for Colleges and various private and Public Sector concerns. Bernard has a sound background in Sales and Marketing and still considers himself a marketer, remarketing the most fascinating product ever... YOU!

Neuro Linguistic Programming Diploma

8 Sessions over 8 weeks costing £320

Week Commencing - 04/04/12, 6:30 - 8:45pm

Bernard Barden

NLP is great for anyone who is curious about 'how and why we do, what we do, the way we do'. It will also fascinate those interested in self development, body language and the role our unconscious mind plays in communication. It will empower you to take control of situations and teach the virtue of flexibility and fresh perspectives.

The Diploma is the first step on the learning ladder and will give you insight and understanding of behaviour... yours and others. It is a precursor to the practitioner level that enables you to work as an insured practitioner.

What will I learn?

- the power of language * importance of observation * how to listen effectively
- how to change and maintain state * how to influence others * how to make decisions
- how to well-form outcomes * to unleash the power of the unconscious mind * to understand the behaviours of self and others...
- AND MUCH MORE...

No experience is required; just bring your commitment and curiosity.
